## **ABOUT SELECTED BIBLIOGRAPHY**

### **Introduction**

**Selected Bibliography** has been published by the Institute for Tourism, Zagreb, from 1995 as a regular supplement of journals TOURISM (ISSN 1332-7461) and TURIZAM (ISSN 0494-2639). Since 2016 it is published as a semi-annual periodical publication. It brings a selection of scientific articles from the world relevant journals in the field of tourism. Articles are indexed using the Classification scheme for tourism (CST) that was developed in the 1990-ies by Dr. Tomislav Hitrec, scientist at the Institute for tourism.

The first issue contains a selection of scientific articles which have been processed during the period from July 1, 2016, until December 31, 2016. It should be highlighted that the Library of Institute for Tourism offers the search possibilities of the entire bibliographic database.

### **Classification Scheme for Tourism (CST)**

The basics of classification scheme used in the special Library of Institute for Tourism were laid by Dr. Tomislav Hitrec more than twenty years ago. In his works from 1988, 1989 and 1991 he explained the need for the application of special classification scheme in tourism, which reflects its multidisciplinary nature and complexity that is not encountered in other scientific and professional research activities. Dr. Hitrec, scientist of exceptional erudition, has carried out a pioneering task forming a classification system based on his extensive professional experience and broad insight into many areas. The first version of Classification Scheme for Tourism (CST) was published in 1991.

The current version of CST contains 832 attributes which are hierarchically organized into 8 main topics; works that cannot be classified into one of the main topics are classified under the group *Miscellanea*. Geographical index is also an integral part of CST. Each topic is further elaborated in two sub-themes. The process of assigning CST attributes requires from the indexer to review the title, key words and abstract, and sometimes the whole work to choose CST attributes that best match the content / topic of the work. The number of CST attributes that are assigned to a particular document is not prescribed and can vary in the range from one to seven. The works are usually given four to five CST attributes, one of which is a geographical as required if it can be determined.

### **Journals included in the Selected Bibliography**

The journal selection process for Selected Bibliography is governed by a set of criteria such as different areas of tourism research, all geographic regions of the world, and the high quality of papers.

### **About Library and bibliographic database of Institute for Tourism**

**Library of Institute for Tourism** is a leading library for research of tourism in Croatia which applies among others, a unique Classification Scheme for Tourism (CST) in processing documents.

Library was founded in 1959 as a part of the Institute for Tourism which follows, collects, processes, maintains and protects documents related to tourism, as well as disseminates and exchanges information. The Library's main mission is to systematically build an internationally relevant bibliographical database containing the most important international and local sources of scientific and professional literature and tourism-related information which is regularly updated by the latest scientific contributions. Bibliographic database contains over 35.000 records that can be searched by author, title, subjects, publisher, ISSN, ISBN, year, and type of publication. It is also possible to search by CST attributes.

Library is available at [www.itzg.hr](http://www.itzg.hr).

### **About the publisher**

**Institute for Tourism is the only scientific public institute in Croatia specializing in research and consultancy services in tourism.** Institute for Tourism is a well qualified partner for tourism acters and adviser in achieving greater competitiveness of Croatian tourism. Among other basic tasks Institute for Tourism publishes journals **TOURISM** and **TURIZAM**, and series **Scientific Edition**, **e-Publications**, **Croatian Tourism in Figures** and **Selected Bibliography**.

Library is available at [www.itzg.hr – Online Library](http://www.itzg.hr – Online Library).
